

VENDING

VENDING MACHINES AND VENDOR-MANAGED INVENTORY

NELSON & STORM TOOL SUPPLY COMPANY

GIVE US A CALL 800-322-0574

CUSTOMERS FIRST

Nelson & Storm has been providing industrial vending to our customers since 1997. Each vending system is tailored to our customer's specific needs. From selecting, configuring, and installing the right machine to creating your database to customize packaging, data collection and custom reporting, Nelson & Storm will provide you with an innovative and cost-effective way to manage your tooling.

Why Nelson & Storm?

- With over two-thirds of our business comprised of VMI systems, we have the staff and expertise to provide the right system for your tooling needs.
- Cutting-edge automated infrastructure facilitates inventory management, provides automatic purchase orders, and creates custom and detailed usage reports.
- Our outstanding customer service includes packaging tools to match usage requirements as well as monitoring and stocking the machines, saving our customers thousands of dollars a year.
- Fully trained service technicians are on-call 24/7 to service and maintain the Autocrib® machines.

AUTOCRIB® MACHINES

AutoCrib® is an industry leader in MRO/tool dispensing machines. With several products to choose from, we can provide you with the right machine(s) to efficiently store, dispense, and track your inventory.
